I have a 1:32 Accucraft Kerry Stuart Victory 0-6-0T live steam engine and rake of wagons for sale.

Would you mind posting it into the GVGRC Buy & Sell?

All except for the brake van are new. I've run the Victory just once but not enough to fully break it in. It's a chaser (i.e. not RC equipped).

I have the original boxes for everything but the brake van. The wagons are BMS/Accucraft shipped from England. The brake van is a metal construction which I purchased used when I was in England last September.

The three 7 plank wagons are BMS model numbers R32-1's The 14 ton Esso tank wagon is a BMS R32-3. I paid the equivalent of \$190 CDN for the metal brake van.

I will only sell the whole train as one set. \$2700.00.
